

Alamo Dressage Association 2022 Annual Report

ADA has enjoyed a reasonably successful year as we are finally able to transition away from some of the Covid restrictions that hampered gatherings for all of us. We were able to maintain steady membership numbers throughout.

This year we hosted a successful Spring recognized show and have dates and arrangement to do the same in spring of 2023. We have an ongoing series of virtual schooling shows that have been offered several times this past year, providing an opportunity for people in our region and indeed anywhere at all to submit entries for judging by L grads. True to our stated mission of providing continuing equine education events for members we held a well-attended judging seminar lead by Joan Darnell with a mix of L grads able to get education credits as well as a number of auditors. Joan's teaching was excellent and we are planning to continue holding judging seminars on a go forward basis with planning for a 2023 seminar active now. Additionally we recently held a seminar on hoof health with a local farrier who specializes in composite shoes and rehabilitative shoeing providing a wealth of knowledge for attendees. We have other educational sessions in the works for later this year.
